## Access to Secure Areas of the Police Department Limited

In response to the World Health Organization's declaration of COVID-19 as a global pandemic and Governor Polis' state of emergency declaration, the Parker Police Department wants to make sure we are doing everything we can to ensure our ability to serve Parker isn't compromised. Public safety is our number one priority. We are limiting access to secure areas of our building and all classes, activities and events that were being hosted at our facility will be paused until further notice. There will be no delay or disruption for any calls for service we receive and our front lobby will be open for business as usual. Our goal is to maintain the level of service Parker residents expect as we work through the impact of COVID-19.

Tri-County Health's website is an excellent resource for the latest information about COVID-19 and what you can do to help limit your exposure. <https://www.tchd.org/818/Coronavirus>

The Parker Police Department prides itself on the amount of training we offer to our employees and the number of educational opportunities we offer Parker residents. We understand the importance of a highly trained staff and engaged community. The community support for our Citizen's Police Academy, Scout Night, Weather Spotter and other offered classes gives us a tremendous opportunity to enhance our partnership with the community. We look forward to restoring the educational opportunities available at the Parker Police Department and will make an announcement when all activities resume.

Thank you for your understanding and we look forward to seeing you at future classes and events.

Sincerely,

Chief Tsurapas
